Your first setup may be overwhelming but follow these steps and you will be fine, otherwise give us a call. You only have to do this once.

1. First insert your Takealot Display Name (This must be the exact display name) and insert your licence key then click Save login.

The screenshot shows the 'My BUY Box Login' window. The title bar says 'My Buy Box Login'. The main heading is 'My BUY Box' with the tagline 'Your Buy Box Battle Companion'. Below this is the section 'Login or Select Your Account:'. It contains two dropdown menus: 'Selected Package:' and 'Select Account:'. Below these is a green 'Login' button. Further down are two text input fields: 'Display Name:' (with placeholder text 'Your Takealot Display Name') and 'License Key:' (with placeholder text 'Your Licence Key'). Below these fields are two buttons: 'Save Login' and 'Delete Account'. A red box highlights the 'Display Name' and 'License Key' fields, with a red arrow pointing to it from the right. Another red arrow points to the 'Save Login' button from below.

2. Select your package, eg; MyBuy100, then select your account (this is the account you saved) then click Login.

The screenshot shows the same 'My BUY Box Login' window, but now the 'Selected Package:' dropdown is set to 'MybuyUnlimited' and the 'Select Account:' dropdown is set to 'Your Takealot Display...'. The 'Login' button is highlighted with a red box, and three red arrows point to it from the right. The 'Display Name' and 'License Key' fields are still present but not highlighted. The 'Save Login' and 'Delete Account' buttons are also visible.

3. Insert your Takealot Display Name (This must be the exact display name) and insert your Takealot API key then click Add Profile.
